

Carry Freedom Info Sheet 003\_11/6/04: The bArk Trailer

---

### The bArk Trailer

---

A dog's best friend, the bArk allows your pet to travel with you 1st class.

**The bArk** An exciting new product that gives you the freedom to take your dog on a bicycle ride. Whether he has difficulties walking, or you need to travel long distances- perhaps through traffic before reaching a safe play and walking area, the bArk is an ideal solution. Secure, durable and perfectly balanced, this is the quickest and easiest way to transport your pet. A combination of our versatile Yframe and an airline approved pet carrier, the bArk works perfectly as a pet transportation system when attached to your bicycle, and as a kennel or dog bed when at home or on the car.

**Dog Trailer** The bArk trailer is extremely easy to assemble for use; simply attach the wheel's with their button release axles, pin on the handle, and hitch the trailer to your bicycle, securing with a pin. Your dog can easily get in and out of the box-access through the caged back panel. The robust plastic Airline approved pet carrier shell is easy to clean, with a storage panel in the lid for a leash, toy or treat.

**Kennel/Dog Bed** Quickly detached from your bicycle, wheels removed, the bArk converts easily to a kennel, or by unclipping the lid, a dog bed. Encouraging your dog to use the pet carrier as a bed and kennel will ensure he becomes familiar with the bArk

and therefore comfortable when you use it as a pet carrier as you cycle. The pet carrier can be stored in your home or strapped inside your car, taking up little space when disassembled.

**Sizes** Our medium and large trailers accommodate most breeds:

**bArk Medium** – Bearing weights up to 10 kg, the medium bArk is ideal for medium sized dogs such as spaniels or terriers.

**bArk Large** – The large bArk, handling dogs weighing up to 25 kg, has the stability to move bigger pets safely, whilst your bike handles easily. The table guide below should be of assistance:

**Custom** Extra Large trailers or adaptations to carry 2 dogs can be made to order. Please contact us for further details.

---
