

Carry Freedom Info Sheet 006_20/9/04: The Y-frame Trailer

The Y-frame Trailer

Simple, light, strong.

The Y-Frame This adaptable trailer can carry anything, anywhere. Simple, light and strong the Y-Frame combines innovative design with sturdy construction to produce one of the most versatile bike trailers you can buy.

Y-Frame Large

20" wheels
700X500mm load bed
90kg capacity
7.5kg weight

Y-Frame Small

16" wheels
580X380mm load bed
45kg capacity
6kg weight

The trailer The simple aluminium frame, although very light is incredibly strong, while many luggage options can fix to the plywood load base. Add to this the benefits of easy storage (the wheels and handle 'Quick-release' in seconds), and what you have is one of the most affordable, versatile trailers on the market today. The simple but efficient hitch allows fast and secure attachment to and release from your bike.

Choose a top Use the trailer as standard with its tie down straps and load bed, or fit a bag or box to suit your purpose. 100's of

commercially available bags and boxes will bolt or strap onto the trailer, we have selected the following for their quality:

Ortlieb's waterproof rackpack bag,
50/90 litre capacity.

Fold-flat plastic box with lid 60litre capacity.

Lockable durable aluminium container,
60/120litre capacity.

Indestructible Explorer diving case for
precious cargo or war zones.

Uses Commute with a change of clothes in the rack pack bag, carry your groceries with the fold flat box, tour the world with the lockable aluminium box, or transport precious equipment with the Explorer case. The Y-frame lends itself to functions limited only by your imagination. Whether carrying everyday loads or planning something unique, we can help.

Accessories We can supply an adaptor allowing you make a 4 wheel trailer by linking two Y-Frames one behind the other. Our hand cart adaptor allows you to walk the trailer with minimal effort. Extra hitches can be fitted to your other bikes them all enabling you to fit your trailer to all.

Custom build The basic Y-Frame can be stretched widened or made four-wheeler to suit whatever task you need it for.

Past customers have bought bicycle hearses, trailers for taxiing microlites, transporting yachts, and for moving house. To discuss options contact us at: custom@carryfreedom.com or phone 0845 456 0928

Construction The finish is excellent; anodised 6064T6 aluminium welded to the highest quality standards by our ISO 9000 factory. Schwalbe's marathon tyres with Kevlar armour run on lightweight 20 spoke wheels fitted with sealed cartridge bearings. These wheels are attached by sturdy button release 12mm wheelchair stub axles.

Carry Freedom The Y-Frame trailer is just one model in the all new Carry Freedom trailer range, developed by Nick Lobnitz in collaboration with BIKEBOX of Canada. Carry Freedom is just that, we create innovative high quality solutions tailored for people living in the real world.
